RAPID CITY (8. D.) June 23. upon the Boulder Dam question, Representative Tilson of Connecticut, Republican House leader, declared today after he had motored to Rapid City with President Coolidge from the State game lodge.

The bill for the construction of Boulder Canyon dam which failed of action in the last session, may not be the one finally agreed upon, he believes, because now the question has become interrelated with flood-control measures which the House leader looks upon as a nation-wide program, but, he said, some sort of egislation, perhaps as yet undetermined in its many phases, in his common, will be passed.

Husband on Way from Orient Heard of Illness After Wife Had Slept Month

FRESNO, June 23. (P)—Mrs. Clara Drummond, 21 years of age, tomorrow enters on her eighty-second day of unconsciousness, the result of the action of carbon monoxide on the brain tissues, physicians say. She was found April 5 in a room filled with gas which had escaped from the partly opened jets of a gas stove.

Shê is a patient at the County General Hospital, where she is fed daily by means of a nasal tube, her diet consisting of milk, orange juice and malted milk. Although her long sleep has left her pale and somewhat frail in appearance, her physical condition is good, according to physicians. Her normal weight was shout 110 pounds, and she now weighs 85 pounds.

Action of carbon monoxide gas in affecting the part of the brain controlling consciousness has created a case almost unparalleled in medical history and it is expected to attract the attention of physicians in all parts of the country.

Brummond said today that he did not hear of his wife's illness until a month after it occurred, as he was in the Orient, sarving as a petty officer aboard the steamer Eldridge of the Admiral Line. On April 4, when Mrs. Drummond was exposed to the gas, he was two days out of Dairen, Northern China, en route for Sesttle.

Scheduled Hop-off Today Postponed When Weather Man Advises Delays

ROOSEVELT FIELD (N. Y.) June 23. (P)—The flight of the monoplane America was indefinitely postponed tonight when weather conditions falled to improve as they had been expected to do. Commander Byrd announced the nostmonement on ad-

hundreds of automobiles which had parked on the field, began rolling slowly away.

The plane had been fueled, its barograph sealed, and taken to the runway in preparation for the flight definitely set for 4 am., when the postponement was announced.

Late today T. Harold Kinkade, Wright motor expert, denied a story that he had been ordered to proceed by steamer to Ireland. This report had served to strengthen growing belief that Byrd plans a return trip. By starting the flight back from Ireland instead of Paris he would, by shortening the distance, equalize the western journey's adverse winds. Kinkade announced, however, that his only orders were to take the Majestic tomorrow and go direct to Paris.

Rodman Wanamaker announced during the day of that the life of Bernt Balchen, latest addition to the crew, had been insured for \$50,000 with Lloyd, his mother in Oslo, Norway, being named as beneficiary, Provision had previously been made for the wives of Commander Richard, E. Byrd, Ber' Acosts and George Noville, the other members of the crew, in case of accident. On May 12, last, before the addition of a fourth man had been considered, Wanamaker deposited \$150,000 in a trust fund.

BAKERSFIELD, June 23. (Exclusvie)-The San Emidio

Two hundred men, directed by national and State forest rangers and fire wardens, are bending all their efforts in keeping the fire from spreading beyond its five-mile width. They are powerless to do any more than wage an even fight on the east and west fianks, while the front is eating steadily into the higher timber levels, aided by a stiff breeze that is carrying it in a southeasterly direction. Unless brought under control, the fire will be carried into the wooded area between Fragier Mountain Park and Lebec.

Flames and sparks shot up hundreds of feet as a section of large timber on Plateau Ridge was consumed, and then the flames died down to a steady, relentless advance through acrub timber toward the higher wooded area of the mountains.

AT GENEVA PREDICTED

[Sherrish, 1937. br Chicago Tribuna]
LONDON, June 23. (Exclusive)—
The British authorities at Geneva satimate that the naval conference will not last more than three weeks, deubting even that duration, eccording to dispatches received in Longton today, all of which declare that the wast gulf existing between America and Great Britian on the principles for naval limitation never will be hridged.

The general note today was hardly optimisic and agreements, it was admitted, are impossible.

Two cutstanding revelations of the British Navy League signed by Lord Sydenham, which trusts that "the total tonnage limitations suggested by the United States will never be agreed to by our delegates." The Navy League even goes so far as to protest against the British proposal to accept the 5-8-5 ratio for 10,000-ton cruisers as "greasly unfair to Great Britain," The league tears that the proposed limitation of the tonnage of light cruisers and destroyers "may also work to our disadvantage."

Bay City Bridge | TRIPLE SLAYING IN CHICAGO Man Believed Two Policemen and Robber Killed Shooting It Out;

Mystery Girl Flees in Horror

WASHINGTON, June 23. (P)—The request of San Francisco for authority to bridge the bay there at a site selected by city engineers was referred today to Maj.-Gen. Jadwin, chief of army engineers.

There has been no indication of the recommendation that will be made although naval officers have insisted the plans would interfere with the effectiveness of the Navy.

At engineer headquarters today it was said unofficially that the proposed bridge would be of sufficient height to permit passage of the average promised by the engineers.

-new west-coast trips for the finest vacation you ever had

Southern Pacific now offers a double-route journey to the Northwest of thrilling interest and scenic attraction. See the whole Pacific Coast this summer. The great western playground more easily available to you than ever before.

Play in this vast "evergreen playground." Quaint cities typical of old England. Green valleys, rearing peaks, a broad powerful river. Harbors sheltering ships from all the world.

From Los Angeles ride over the beautiful Coast Line to San Francisco aboard the non-stop, 12-hour Daylight Lim-ited. Go north from there over the new Cascade Line, a trip along lovely lakes, towering peaks and through virgin wilderness. Gorgeous Mt. Shasta can be seen for hours from your car window.

You can come back over the Siskiyou line of the Shasta route to Sacramento or to San Francisco; then south if you wish through the great San Joaquin Valley (new San Joaquin Flyer by day).

The journey on the train is delightful. Southern Pacific provides this year faster, finer service. Ride aboard the new, well-appointed West Coast from Los Angeles direct, or the new, extra-fare Cascade, the famous Shasts or Oregonian from San Francisco. Pullmans through without change to Portland, Tacoma and Seattle. Convenient connections on to Vancouver, Victoria, Spokane and other northwest points.

More Facilities. Not Laws, Held Need of Blind

SACRAMENTO, June 28. (P)-Extension and strengthening of exist-ing facilities for caring for the 2378 blind persons in California, rather than enactment of new legislation, is recommended by the State Departcommend-ment of Public made public, rtension

These extensions would include addition of classes in schools, increasing of the number of home teachers and emphasizing in the State schools of the vocational aspect of training for the blind. The department also urges that the monthly allowance be based on the actual needs of the recipients, rather than any specified sum. In this way it is pointed out that a sum greater than the \$15 maximum could be expended to aid those in need.

l son of Montana and Sorlis of North Dakota, have been invited to the conference.

According to the call, the proposed corporation would form a central land listing agency through which lands in all four States could be classified, appraised, managed and offered for sale.

Operate an efficiently supervised immigration soliciting agency capable of interesting competent farmers in northwest land bargains.

Place local field organizations in every section competent to handle incoming settlers.

Create a method of financing the purchase of lands by experienced incoming farmers who are unable to meet terms of sale now necessarily required by many banks, receivers and individuals.

The sim of the corporation would be to revive public confidence in the inherent value of agriculture and stimulate a "back to the land" movement by providing capital for purchase on long terms of payment.

BAD FAITH CHARGED ON HIGHWAYS

Attorney-General Asserts Old Commissions Failed to Complete Promises

web of failing to keep faith with the people in the matter of building roads to connect county seats with the main highways of the State. The specific charge was made in a letter read before the commission

a letter read before the commission in connection with a request by Northern California delegations for State aid in building a highway to connect Oroville, Butte county, with Quincy, Flumas county, by way of the north fork of the Feather River. The letter was read by E. Forrest Mitchell, commission secretary.

Webb, in prefacing his charge of laxity against the old commissions referred to the three highway bond issues voted by the people in 1900, 1915 and 1919, for \$18,000,000, \$15,000,000, and \$40,000,000, respectively, which were submitted to the electors with the promise that if voted the State would build, among other highways, laterals to connect all county seats with main thoroughfares.

With Ease to Car and Comfort to Passengers

This is far below the maximum speed of the Essex Super-Six. Yet it illustrates another brilliant side of Essex performance—the ability to cover long distances so smoothly and easily that neither car nor passengers are conscious of the effort.

A level, road-skimming riding ease, and smooth, silky power give a riding sensation that is like flying.

Flashing pick-up, positive brake control and easy steering give nimble, fast and safe going in traffic.

The new Essex Super-Six is a triumph of engineering-for long wear, accessibility and lowest operation and maintenance

Five beautiful new bodies meet every requirement of utility, convenience and fine appearance.

Hudlin Hurls Cleveland to Win Over Browns

CHICAGO. June 28. (P)—Detroit defeated Chicago, 6 to 5, in a thrilling eleven-inning battle today and dropped Chicago to third place. Erratie support, coupled with daring base running by the Tigers, defeated. Ted Lyons, although he allowed only six hits. Lil Stoner weakened in the minth, and Pinch-hitter Barl Sheely, the first man to face White-hill, Stoner's relief, singled, scoring Palk with the tying run. The visitors won out in the eleventh on Bluer's single, Twener's accrifice, Bluer's steal of third and Woodall's sacrifice fly.

The game was featured by the first triple play of the season in Chicago, which was made by the Tigers in the third inning. With Lyons on third and Metaler on second, Hunnefield grounded to Gehringer, who threw

Bullock's Store for Men

Now Come Hundreds of Men's Suits from Higher Priced Lines to Make An Emphatic Value Event

Choosing the Price with which thousands of men already associate Opportunity and Bullock's Store for Men-

Going forward today for the first time at their new greatly lowered price, promising an occasion of significant importance to men who appreciate Quality and Character.

Today you are going to find labels bearing the names of manufacturers known far and wide for integrity in the clothing field, distinguishing many of these Suits. Probably you have never before seen them on suits at a price so low. Bullock's can not recall such an occasion.

Many other suits included come under the name of Billock'seasily recognized by their splendid character as being of a class usually aloof to a price

of \$34.50. There are imported fabrics—there are domestic woolens — there are patterns of an exclusive nature—there are dark shades and light shades -there are two and three-button models. The kind of a presentation

that, if you had not been told of price reductions, would make you wonder how \$34.50 could possibly be the price. Bullock's believes the quantity

will diminish rapidly. Everything has been done to make it so. Value merits it. Wisdom suggests an early selection. Sizes 34 to 44 are included.

There are many suits particularly fashioned for the young man with collegiate preferences. There are plenty of suits for the more mature man in business. In a price reduction event at \$34.50 each.

> Bullock's specialization on suits at \$34.50 is also worth investigating. Stocks are particularly complete now. The newer styles and fabrics. Double breasted and single breasted models. At \$34.50 they are friendwinners.

His victory was abort-lived, however, for he took a terrific beating at the hands of Berkley Bell, Texas. in the quarter-final round, 6-0, 6-2. Wilmer Allison, conqueror of Cranston Holman, chalked up another brilliant win here today by trouncing Wallace Johnson, the chop-stroke artist, after a hard three-set encounter, 6-2, 3-6, 6-3. Another upset of the day's play found Miss Eleanor Goss, nationally rated No. 4 in the women's ranks, a victim of the rackets of Miss Margaret Blake of Boston. The match went to three sets but the younger star pulled victory out from under the nose of the favorite with the tournament experience. The final scores were 6-4, 3-6, 6-2.

RIVAL OARSMEN IN RACE TODAY

The prospect of a close straggle forecast a colorful and possibly record-breaking crowd for the regatta day program, which starts with the two-mile tests between the freshman and junior varsity eights, the first at 19:20 a.m. (eastern daylight time) and reaches a climax with the varsity classic at 7:45 p.m. Harvard's optimism not only has been aroused by the fact that Yale's great varsity winning streak already has been broken this season by Princeton, but also because Ed Brown, in his first year at the Cambridge helm, has developed a husky, hard-pulling combination. If time trials—several of them in sensational figures of better than 20m for the four miles—and the evident power of Harvard's shell are a convincing indication, the Crimson figures to be the favorite. But if Yale's more seasoned combination, leader-born confidence and smoother rowing form are decisive factors, the advantage should lie with the Ells.

Yale's eight has been effective for barely a veek, but, to all outward appearances, this has caused no break in the flowing rhythm of the shell. The Ells excel in experience, with six veterans of their 1926 winning crew, but they average slightly less than 178 pounds per man, whereas the Harvard eight averages 184. Coach Ed Leader and Ed B. Brown, both taciturn, but also optimistic, declared their charges in excellent condition tonight.

Incidentally nothing could possibly do tennis more good than the development of a young star across the sea. Our players have been overwhelming their opponents for a long time and really the best opposition has come from the older players among the English women. A 16-year-old girl like Betty Nuthall, if it looked as though she really could wallop the best of the veteran players, would provide a lot of new excitement and interest. France has given tennis a new lease on life by means of the development of its young stars like Borotra, LaCoste, Cochet, Landry and so on, and if the British can do as well with the girls we'll have a lot more interest in the sport.

Nick Cartes, who recently re-pelled the Swedish invasion per-sonified by Mr. Wide, the well known mile runner, drops us a telegram from Lincoln, Neb., stat-ing that he and the rest of the LAA.C. delegation are in spien-did shape for the nationals. He says the track is good and really the only fault he finds with the place is that he can't get a copy of The Times, particularly the sports section. This would seem to indicate that Mr. Carter

"is the finest ginger ale in all the world!"

THE favor of Filmdom has been sought by many ginger ales. For to gain approbation of Hollywood's connoisseurs is a supreme mark of distinction.

One ginger ale alone—Hollywood Dry -has won. Not ordinary endorsement. but approval so sweeping that every bottle bears the picture of a world-famous star. Thus Hollywood Dry is distinguished above all others. Thus it stands without question as the finest ginger ale in all the

The quality that won Filmland is sweeping Hollywood Dry to the heights of popularity. The finer flavor . . . the exquisite blend of the finest Jamaica ginger ... the smoothness and mellowness that changed the ginger ale "habits" of the stars . . . these features are winning beverage connoisseurs all over the world.

You, too, will get an unprecedented ginger ale "thrill;" you, too, will experience a bubbling "life" you've never known before; you, too, will have all your previous conceptions of ginger ale goodness surpassed-if you ask just once for "the drink of the stars."

FACTORS OF STRENGTH

THE remarkable record of dependability established by public utility securities during the past twenty years has won for investments of this character a leading place among the holdings of insurance companies, banks, and conservative private investors. We believe in the strength of the utilities and recomment utility securities to our clients because of the following factors:

1. AN INDISPENSABLE BUSINESS.

A STABLE and growing market.
 NO INVENTORY losses.

4. A CASH business with no credit losses. 5. STATE REGULATION assures a fair return on invested capital.

A strong utility security of a company serving the heart of Illinois—one of the most populous and prosperous sections of the Middle West—is found in our recent offering of

Field Shows Increase

The townlot field at Huntington Beach, including the Barley Patch wells of the Standard Oil Company, Just west of the city limits, is producing at the rate of about 36,750 barrels a day, which is a substantial increase over the output a week ago, according to a survey of the field was doing about 36,000 barrels a day. The difference is due to several good wells, ranging in output from 1100 barrels to 300 barrels a day, which have been placed on production during the past few days. There are about 160 producers in the field, as against 175 a week ago.

The Olympic Befining Company has brought in a new well in the western end of the Huntington Beach townlot field, with an output of about 180 barrels a day, according to field reports. The well was completed at a depth of \$330 feet.

The Current Duliness

One explanation offered for the present indifferent state of affairs in the market was that this is the season of the year when bankers turn their interest to other market turn their interest to other matters almost to the exclusion of the stock market. Thus the market is left for the time being to stand on its own feet while preparations are made to take care of the heavy shifting of funds incident to the big July I disbursements on midyear maturities and are given to scrutinising the loan envelopes. In the absence of such formidable leadership at the moment the market appears to have gone stale and would seem to be giving more attention to the growing evidence of a siackening of the pace in industry and trade.

Famous Players Break

Famous Players Break to be a heavy wave of liquidation caused by the unovering of a long run of stop-lose orders which had been resting under the market. The selling was unleashed by a sharp drive against the stock by professional bears, based on the news coming overnight that great economies were essential to the welfare not only of the company but the motion-picture industry as a whole. Wail strest has known for some time that effort was being made to bring overhead down, but few had believed that such a step as that now taken was under consideration.

Resumption of Enpressive buying in Southern Pacific was a feature of the day among the rails. The demand here, which lifted "Soup," as the road is to be known, to within a fraction of top levels for the year, was inis to be known, to within a free state of top levels for the year, was influenced by the splendid showing of
the road's 'May results. The company showed a healthy expansion in
gross over a year ago and though
some expense items ran higher, the
road was able to carry approximately
half the gross improvement along to
net. The five-months' figures also recorded corresponding gains over that
period of 1926.

Exempt from California Personal Property Tax. The following information is contained in a letter to us from Mr. George H. Woodward, President of Woodward-Bennett Packing Company:

The Company:

The Company:

Woodward-Bennett Packing Company, a California Corporation has been formed to take over the business formerly conducted by the Woodward-Bennett Company and the Los Angeles Packing Company. The Company is engaged in the packing and distributing of meat products.

Woodward-Bennett Company was incorporated in 1898 as a California Corporation by Mr. John A. Woodward, Sr., and Mr. E. J. Bennett with a capitalization of \$50,000. The principal place of business was in San Jose, California, but in 1906 the Company moved to Los Angeles, where it has been in operation since. The Company has never had an unprofitable year in business since its inception and has shown a steady and consistent growth. In 1914 the Company paid a 100% cash dividend and established a dividend rate of 33 1/3 cents per month per share. In 1916 and again in 1919 the Company paid an extra cash dividend of 18%. In 1923 a 400% stock dividend was declared.

Los Angeles Packing Company, a California Corporation, was organized in 1916 to conduct a similar business. The Company has enjoyed a consistent growth from its original paid-in capital of \$25,000 to its present net tangible value of over \$300,000.

By the consolidation of these companies a complete unit in the mest packing Industry is formed. The management of the new Company's affairs will be in the same hands as formerly, which insures the continued capable operation of the business. In addition, material savings will be effected by the merging of various departments and the elimination of duplicated operations.

DOES IT MATTER?

Apropos of recent archeological discoveries.

Savants hotly disagree as to whether they have in an ancient city of Asia Minor a confirmation of the story of Moses and the bullrushes, or whether they are just reading some acratches on the bricks.

After all, does it matter so much?

OUT OF THY PAST

It is significant that the most interesting discoveries in the ruins of Babylon were some land deeds and receipts for cattle sold.

These things make the past live for us again; they dig up out of the mists of antiquity common simple folk, who were trying to get along—just as we are.

We know from experience that the kingly inscriptions that have been found were political propagands—authorized legend. But a bill for pigeons is a vital historical document.

SELECTION, NOT CENSORSHIP

Imitating the example of retiring Councilmen in Los Angeles, the nearly defunct City Council of Long Beach is attempting to put over a last-ditch ordinance of a highly contentious character that no commu-nity with complete realization of its meaning would accept on a rush order of this nature. As a supposed emergency measure this moribund Council would foist on the ntelligent citizens of Long Beach a cen-orship ordinance to place the selection of magazines, books and newspapers, as well as of motion-picture films and spoken dramas, in the hands of two Councilmen the Chief of Police and four appointed citizens, two women and two me

Opposition already developed may—and certainly should—provent so drastic a measure from being adopted, especially in such haste. Churches, women's clubs, the ction-picture industry and many prominent citizens have already expressed themselves in no uncertain tone. The intelli-gent and cultured, not the morons and sensation mongers, are leading the fight against The question of censorship, as applied

to motion pictures, has already been threshed over many times. Arguments employed against placing the choice of the amusements of the many in the keeping amusements of the many in the keeping of the few seem scarcely necessary in a country where an intelligent democracy can stand on its own feet without such artificial wooden crutches. To permit half a dozen or so of appointed censors of purely individual prejudices and preferences to dietate the plays or nichrost the multiple dictate the plays or pictures the multitud may see or the books, magazines or news papers they may read is an assumption of

Censors, whether they be chiefs of po lice or City Councilmen or only self-designated moralists, seldom reflect the opinions nated moralists, seldom reflect the opinions of the majority. Too often they are political hacks, professional reformers or misguided zealots. They can do nothing that the good taste of the people as a whole cannot do better. Neither the people of Long Beach nor of Los Angeles nor of California nor of the United States are ready to be strait-jacketed in the menual black to be strait-jack-ted in the mental black shirts of imported Fascism. We have not forgotten how a police censor in Los An-geles, considered capable by the authorities of passing judgment on a work of dra-matic art, admitted on examination that be had never heard of "Othello" and did not

know who was the author of the play.

As to newspapers, the only logical way to censor them would be before publication. After publication, if anything objectionable appears in their pages, the mis-chief has been done—most of it to the of-fending newspaper itself. But to have pubword that goes into a newspaper, before printing, is manifestly absurd. Practice has proven that publishers and editors for their own good must inevitably be compe-tent selectors. Indecency and impropriety never pay for long.

THE REAL HOLLYWOOD
A cheerup writer in Life tells what a sightseer expects to find in Hollywood: Charlie Chaplin clowning on Sunset Boule-vard; Lon Chaney as a hunchback selling pencils; Douglas Fairbanks leaping from skyscraper to skyscraper; Mary Pickford in rags heaving tomatoes in a back lot; artillery booming constantly in midnight brawls

sees: Douglas Fairbanks and Lon Chanes in business suits; some speed demon of the screen having difficulty negotiating the regular traffic on an ordinary avenue and subject to traffic signals; some actors eat-

The arched eyebrows have overworked their jobs on Hollywood. The finger of scorn seldom seems to hold a normal pen.

There is a suspicion that some stories of Hollywood life were developed in the make--for sale. The imagination of the world is hungry and an attempt is made to give it what it wants. Legislatures have

cinnati has made a special study of drunk-en and near-drunken drivers in a clinic over which he presides. His is a queer job, but a very important one considering the number of motor accidents in such a populous State as Ohio, and the relation of booze to many of them.

During the last year there were examined at the clinic 500 persons, 340 of whom were ascertained to be suffering from acute al-coholic intoxication. Blood tests were made on a new system. These tests are reported to have definitely established the state of a man in relation to alcoholism. It is found that persons with less than one milligram of alcohol in a cubic centimeter of blood are dry and decent; those with from one to two milligrams are delighted and devilish; from two to three, delinquent and disgusting; from four to five, dazed and dejected, and more than five plain dead

These tests are accepted in the Ohio from Colon to this port or the largest cargo of cocoanuts ever brought to California.

LOS ANGELES, June 17.—[To the Editor of The Times:] I would like to see your paper and others get back of a more intensified air program for the country as a whole, now that the Lindbergh and Chamberlin flights have established the fact that most any plane was a supplemental to the country as a whole was the country as a supplemental to the country and the country large was the country of the country large was the lished the fact that most any plane can be developed so that it can carry people, bombs or what not across the ocean. Any European or other country could invade our country via the air and, with the tremendous coast line and air line, it would be pretty hard to guard it by any other than airplane or airship equipment. In other words, we should be prepared to meet possible invasion from not only the sea and land, but mainly from the air.

LOS ANGELES, June 19.—[To

comments of A. L. Mackaye, entited "Communistic Freedom," are
rather amusing. He objects to the
"Russian Socialistic principle of

Also, a prominent group of Republican women has even gone so far
as to send the Governor a thinly
veiled threat against His Excellency's exercising his official clemenveiled threat against His Excellency's exercising his official clemency. Can you beat that in Russia?

And how about the drink question? A small majority of Republicans and Democrats have promulgated a "ukass" that the people as a whole must not touch, taste, keep or handle spirituous or fermented liquors in any form. The rest of the people, no matter what their own private habits or opinions may be, must conform to the Republican and Democratic views of what is best for them or go to jail.

called and remained unanswered.

"No, judge, I have no tall blond actress but I have several bad actors," replied Judgs Stafford, then inquiring who the girl in question might be. On being informed, the genial jurist seemed much perturbed. Later it developed that Miss Mayo's case was originally set for trial in Judge Stafford's jury division for May 28, last. When the case was called it was found that the actress was absent from the State, fulfilling a theatrical engagement in Seattle. She had written her regrets and was granted a continuance to yesterday. When the case was called again by Judge Turney in order to send the complaint to the jury division and the girl falled to appear, ball was ordered forfetted and a bench warrant issued for her.

Miss Mayo, together with Dinty, her pet dog, was arrested several months ago, when neighbors complained of an extended wild party at

BY GRACE KINGSLEY

With the amashing success of "Chang," the thrilling story of the fight made by Siam's natives in remote sections to protect themselves against wild animals, fresh in their minds, the picture producers are rushing to avail themselves of the possibilities that have been open to them all the time, had they but seen it, to film stories inherent in life conditions of real human drams played against foreign backgrounds.

The newest announcement comes from Metro-Goldwyn-Mayer, already spending immense amounts of rewarch money and time on "The Trail of 28," which Clarence Brown is directing.

The new picture will be Lawrence Stallings's "The Big Ditch," with the Fanama Canal as its background, and dealing somewhat with the history of the rest of the transport of the rest of the play the leading role in the picture.

PLAN "LION TAMER" FOR LITTLE THEATER

From the realism of "A Man's Man." the next little-theater production, steps to a new and very French version of circus life. "The Lion Tamer," by Alfred Savoir, opening at the Gamut July 7.

This comedy fails into none of the usual classifications for a tent show; instead of sentimentality or tragedy, the author has fashioned his plot with a typically Gallic wit, and a decidedly Shavian touch. It is not often that circus trappings are given such a sophisticated atmosphere.

In the little-theater cast will be Nanette Vallon (of "What Price Glory" and "Appearances,") Mario Carillo, Sheldon Lewis, Crautord Kent Barbara Worth. Ole M. Nesse's directing the players. A colorful setting is being provided for "The Lion Tamer." For speed, beauty and costuming this troupe is reportedly in a class by itself. The Apache number which climaxes the appearance is one of the most intricate arrangements ever conceived by Rosloff, and only dancers with years of intensive training, it is said, could execute the involved steps.

FESTIVITY PLANNED FOR MIDNIGHT SHOW

Florence Reed, in her distinguished record of stage achievements, is doing the finest work of her career in "The Shanghai Gesture." now playing at the Biltmore Theater for a brief engagement, in the opinion of many who have followed her career. A. H. Woods, producer of the John Colton drams, has kept intact Miss Reed's entire supporting east of the original New York and Chicago showings. This includes Percy Waram, Mary Duncan, C. Henry Gordon, Bruce Langdon, Henry Warwick, Margarite Orlova and others. With the New York musical comedy, "Peggy-Ann," nearing the end of its engagement at Macloon's Hollywood Music Box, arrangements are being made for the celebration of the fourth "Peggy-Ann" matinee performance to be staged Saturday midnight with a score or more film celebrities scheduled by the management to appear in an evening of festivities.

Douglas Maclean, who was unable to appear last Saturday night, wired yeaterday that he will be on hand tomorrow. Hoot Gibson, Universal stat, has consented to appear, and whether he will bring one of his thoroughbred pintos along is a matter for appeculation.

whether he will bring one of his thoroughbred pintos along is a matter for speculation.

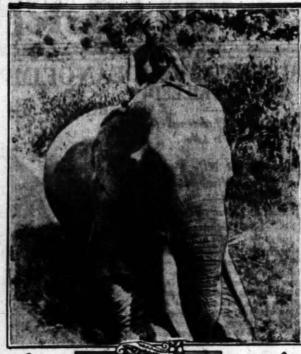

NO TITLING THERE

Walter Anthony, editor-in-chief of Universal's titling department, is taking advantage of a few leisure days by resting at the lakes in the San Bernardino mountains. He has established a record this year for captioning pictures, his latest being "Betty's a Lady," directed by James Piood, featuring Charles Ray and Jobyna Raiston.

OLAND'S DOG WINS RIBBON

Warner Oland, Warner Brothers contract player, who is at present vacationing on his farm near Boston, Mass, has telegraphed friends that for the third consecutive time his quinces have taken the blue ribbon at the county fair at South Framing-ham, Mass. He expects to return to Hollywood in about ten days to resume work in "The Jazz Singer," in which Al Jolson is to be starred as soon as he concludes his musical comedy engagement in San Francisco.

is being proved in the case of Jan Rublini, director of his Little Symphony Orchestra at the Criterion Theater, whose young son, Jah, Jr., is early showing signs of possessing the same taient that has long run through the Rubini family.

Mr. Rubini recently presented Jan, Jr., with the self-same violin, namely a Kiotz, that he personally used since 5 years of age, in all of his professional tours of Europe. And there was no prouder boy than little Jan carrying his violin in its case to his meetro, Leo Cherniavsky, of the Cherniavsky Trio, who is now vacationing in Los Angeles and to whom Mr. Rubini has intrusted the musical education of his son.

Denny Comedy Shares Program With New Acts

Speed is the password of the Figure or Theater show this week. "Past and Furious." picturing Reginald Denny as a young man with a fear complex suddenly plunged into the biggest auto race of the year, heads the film features.

Barbara Worth, one of Universal's youngest players, who has been featured in western roles, makes her debut as a leading lady opposite the inimitable Denny.

The story has to do with Tom Brown, always game when it comes to love and war. He poses for's statue which a sculptor is planning to exhibit at a forthcoming auto show. That is the beginning of a series of situations that combine to make one of the funniest screen plays Reggie has presented.

The vaudeville includes Billy Reilly's Metropolitan Kiddies; Lucie Bruch, gypsy violinist; "The Seventh Son," presented by "rank Taylor and Compnay; Bob White. "The Whizz-Bang Doughboy."

Schrock Builds Story Around Military Life

Some of America's finest specimens of young manhood, future army officers at West Point Military Academy, have furnished the inspiration for a story now being written for M.-G.-M. by Raymond L. Schrock, well-known film executive.

Schrock recently returned to Hollywood after spending more than a month on the Atlantic Coast in search of story material. His trip took him to West Point, where he was immediately impressed by the cinema possibilities of a story setting forth interesting features in the training of the cadets. It is planned to make the forthcoming opus authentic in every way, thus embracing both educational and entertainment qualities. A romantic theme will predominate.

Inspired by a throng of 50,000 who visited the festival last week-end. Beaumont officials are planning the most elaborate program yet given, when it acts as host to thousands on Saturday and Sunday.

A number of Hollywood movie stars will make the trip to Beaumont to take part in the production and the story is to be a three-realer. A film contract for thirty days will go to the Beaumont tanken who comes through with the best screen test. Housewise in Beaumont are busy again baking 15,000 cherry pies for the visitors, which is 5000 more than were baked last week-end. In addition to the taking of motion pie-tures, dancing, baseball games and other entertalnment are down on the program.

With Guaranteed Safety

The thing about Prudential 6% Investment Certificates that appeals so strongly to conservative investors is the remarkable series of safeguards that have been set up to protect the

principal.
Your investment in Prudential Certificates is protected first of all by the very nature of our business-our funds are placed in first mortgages on high-class residence property, widely diversified and conservatively appraised. Certificate holders are further protected by our half-million-dollar, fully-paid guarantee capital, specifically set up as an added guarantee of security—plus our stockholders' liability which under California law is unlimited.

UNUSUAL SAFEGUARDS

Other factors of safety are strict state supervision, a strong group of directors and executives, conservative management, and freedom from the ups and downs of stock markets. Prudential Certificates never vary in value—they are always worth 100 cents on the dollar—assured by Prudential's guarantee to redeem them at any time on 30 days' notice for their full face value plus 6% interest to date of withdrawal. These Certificates are legal for trust funds, tax exempt in California, issued in denominations of \$100 or multiples.

OPPOSITION MARSHALED
Just how far a city may go in censoring the contents of newspapers is
a question which Assistant City Attorney Trammell was frank to admit today is pussing him.
An array of opposition to the proposed measure, which authorizes the
appointment of a board of seven censors, comprising two City Councilmen, the Chief of Police and four
citisens, two of whom are to be women, was being marshaled today and
tomorrow morning's session of the
Council promises to be a heetic one.
Opposition to the censor idea in
Long Beach has developed from many
quarters during the past few days,
and it is expected that representatives of the Pederated Churches of
America, the California Federation of
Women's Clubs, the Parent-Teacher
Association, the moving-picture industry in its various branches, attorneys for newspapers and representatives of the magazine publishers
and distributors will be present to
protect the adoption of the proposed
amendment.

CANNERY OPERATING

PORTERVILLE, June 23.—Porterville branch of the Pred B. Neuhon
cannery opened this morning with
about 265 cutters at the tables, according to reports direct from their
office. The fruit is said to be of exceptionally fine quality, clean, clear,
no blemishes and good size. The
first run will be our royals and tiltons,
with blenheims coming in a bit later.
The cannery opened almost a month
later than usual, due to the late
spring, and on account of the light
crop caused by rayages of birds and
late frocts, will probably run only
about three weeks. An average price
of about \$50 per ton is being paid
to the growers.
